

BIOSOL 19

Date sheet

Product Description

Biosol 19 is a polar solvent containing vegetable-based raw materials.

Biosol 19 has a mild odour and is a water-white, low-viscous liquid.

Industrial Application

Biosol 19 is recommended as alternative to orange terpene and d-limonene in formulated chemical products such as industrial cleaners. Biosol 19 can be applied in aqueous and non-aqueous products.

Biosol 19 is label-free, non-VOC, and readily biodegradable.

Depending on the application area, products based on Biosol 19 have to be tested on their compatibility towards plastic and elastomer materials.

Chemical and Physical Properties

Test Method		Unit	Typical	Specification
DIN 51757 (4)	Density, 20°C	kg/m ³	880	870-890
ISO 6271	Colour	AHPA	5	max. 50
Visual	Appearance		Clear	Clear
ISO 3016	Pour point	°C	<-10	-
ISO 2719	Flash point	°C	124	min. 100
ISO 3104	Dynamic viscosity, 25°C	mPa·s	4	-
